SKILLS

Languages & Frameworks : C, C++, Python, JavaScript, TypeScript, React.js, Node.js, Express.js, MySQL, Swift, AI/ML
Tools & Platforms : Git, Google Cloud Services (GCS), Figma, Xcode, Jira

EXPERIENCE

Infosys

Apr. 2026

App Developer Intern

Mysore, India

- Engineered a production-ready iOS application leveraging MVVM architecture, implementing role-based session routing, on-device OCR document processing via Vision Framework, and a dynamic 18-wheel axle-wear degradation algorithm.
- Developed robust local-first caching, WidgetKit utility extensions, and MapKit-based vehicle dispatch logistics backed by real-time relational databases
- Collaborated within a cross-functional Agile team, participating in sprint cycles, backlog grooming, and iterative retrospectives throughout the delivery lifecycle

PROJECTS

F1.Experience

- High-engagement F1 web app featuring a Neo-Brutalist UI with GSAP scroll-triggered motion sequences and cloud-integrated asset delivery via AWS S3

ABCD — Any Body Can Draw

- Native iOS app guiding users through face portrait creation using Apple's Vision framework for facial landmark detection, PencilKit for Pencil input, and CoreImage for real-time processing

Paint-By-Numbers

- Full-stack web platform that transforms user-uploaded images into paint-by-numbers templates via an ML pipeline combining image segmentation, color quantization, and contour extraction

EDUCATION

MIT World Peace University

2023 – Present

Bachelor of Technology in Computer Science | CGPA: 8.69

Pune, India

ACHIEVEMENTS

iOS Student Developer Program (iOS-SDP)

2025

Powered by Apple & Infosys

MIT-WPU, Pune

- Competitively selected among the top 100 students institution-wide for this prestigious Apple & Infosys cohort, focused on solving real-world problem statements through production-quality native iOS applications
- Navigated a full end-to-end product development lifecycle — from ideation and user research to iterative prototyping and deployment — under mentorship from industry professionals

CERTIFICATIONS

Data Structures & Algorithms + Web Development — Algo University

Google Developer Groups (GDG) Cloud Campaign 2025 — Google
